

Products and Services

Our rotables inventory includes the following aircraft applications:

- All Airbus and Boeing commercial variants
- Bombardier Dash-8, Q Series turbo-props regional aircraft
- Bombardier CRJ series twin-jet regional aircraft
- Lockheed L-100 civilian transport
- Raytheon Beech 1900C/D airliner
- Raytheon Hawker 800 XP business jet

Our expendables and consumables inventory includes:

- Aircraft paints, sealants, cleaning products
- Aircraft structural parts – extrusions, bars, sheet metal, raw stock material

Our comprehensive services provide you with:

Component Repair and Overhaul Management

We will seamlessly handle and streamline all aspects of your rotatable repairs, enabling you to save on shipping, communications and administrative costs. The more you contract to us, the more you save.

Exchange Programs

To get your aircraft off the ground again as quickly as possible, we maintain a specially selected pool of those spare parts that most commonly need replacing, offered at highly competitive rates on a flat-rate or exchange-plus-cost basis.

Inventory and Consignment Management

We offer surplus spares disposal and sale solutions on an outright purchase or consignment sales basis, enabling you to convert your idle inventories into positive revenue streams.

Materials Sourcing

Though no one single supplier has the ability to stock entire inventories that cover every conceivable item, we aim to maintain the most comprehensive inventory possible. We are constantly analyzing the marketplace to further our inventory through sound acquisitions of other companies' inventories.

If the part you require is not in our stock, we will proactively pool all of our resources to quickly locate the component you need, through our global network of approved suppliers and partners. Our sourcing system is proven to be second-to-none!

Aircraft Sales and Leasing

Aventure has several aircraft available for leasing, with a full asset-management program. We want to win your business by earning your trust and confidence, by providing first-class service as well as invaluable expertise and product knowledge. Allow us the opportunity to serve you, and join a customer base comprising hundreds of satisfied airlines and aviation maintenance organizations worldwide.

Serving Your World of Aviation

Products and Services

We are committed to providing you with only the highest quality products and services, to continually meet and exceed your expectations. If we don't have what you need in stock, we will work diligently to find it for you quickly.

Our business philosophy is founded on solution-based services. Our core competencies are providing aircraft and engine parts for your daily operations, by providing component repair management, structural parts and equipment. We perform these services within your time requirements, including accurate completion of all necessary paperwork.

With a firm understanding of your daily demands, we are continually expanding our comprehensive parts inventory. We at Aventure are happy to customize our work to suit your specific requirements. Whether you are an airline or a maintenance organization, we can support your repair requirements, ranging from A through D letter checks to Interim and Heavy Base Maintenance checks, to aircraft modification/conversion programs.

Our customers are found worldwide, and include:

- The world's most prestigious first-tier airlines
- Major aircraft maintenance organizations
- Leasing companies
- The business aviation sector
- Charter and leisure travel airlines
- Cargo airlines
- Private aircraft owners and operators
- Fixed base operators
- Financial institutions
